Energy and infrastructure

Geopolitical and geoeconomic factors together with a renewed emphasis in many countries on achieving energy security have changed markets for the foreseeable future. Moreover there is an ever broadening the understanding that it's not solely a problem for the energy industry but also a trend that impacts everyone who, directly or indirectly, consumes energy. There is real momentum towards a net zero energy and infrastructure system and our dedicated energy and infrastructure team are here to assist our clients capitalise on opportunities, meet their commitments and manage risks as the industry continues to evolve.

Our lawyers work across the full spectrum of the energy and infrastructure sector and deliver advice across the areas of law most critical to the industry in a fully integrated manner enabling us to provide a full end to end service to our clients. Whether looking for operational improvements, development and expansion opportunities, growth or exit strategies, or general sustainable solutions, we assist our clients analyse, contract, complete and optimise their business and investments. This together with our commitment and insight into the cutting edge of emerging technology, trends and transactions allows us to partner with our clients to work in the most exciting and rapidly evolving areas of the sector.

Societal and environmental impact are at the top of our business agenda and we're proud to support the delivery of transactions in this sphere. As a firm we're underpinned by a firmwide sustainable energy and net zero commitment, and we view our work in this sector as an extension of our values.

Our sector-aligned teams take a pragmatic approach, making the complex simple and forging connections between clients to find creative solutions. We draw on our experience working with a broad range of clients including sponsors, equity investors, financiers corporates, public sector clients, contractors, construction companies, offtakers, developers, landowners and energy purchasers. This unique combination of a leading-edge public sector practice (backed by a deep commitment to and understanding of Government), a strong private sector base and a wide breadth of clients, means we're familiar with the concerns and objectives of all participants in this sector.

Browne Jacobson, at a glance

“Paul is an experienced and strong projects and infrastructure finance lawyer who is also enjoyable to work with. He has deep sector knowledge and provides top-quality, insightful and practical advice, often on tight deadlines.”

Igneo Infrastructure Partners

Full-service offering

We cover the full asset life cycle from the underlying technological concept, through the regulatory, procurement, planning and authorisation phase to the raising of equity and debt capital, development and everyday operational aspects (including negotiating the ongoing commercial contracts, advising on agreements with governments, license agreements and securing/protecting the related IP) and the sale or acquisition of such assets and businesses, including the provision of sector-focused advice around asset-level legal due diligence.

Expert teams

Our industry experts provide constructive, innovative and pragmatic advice which addresses and anticipates the wide variety of issues which can arise during transactions. We believe that connection gets results, makes all parties stronger and is central to the Browne Jacobson approach. We're excited to be growing our relationships with clients, working collaboratively and forging connections in what is likely to be a period of rapid innovation and development for the sector.

Working together

Members of the Energy and Utilities Alliance (EUA) a not-for-profit trade association that provides a leading industry voice helping to shape the future policy direction within the energy sector.

We're a founding member of Pangea Net and its specialised energy and renewables group. Pangea Net is a non-exclusive network of full-service law firms across the globe, giving our clients to access high-quality, specialist advice, efficiently and cost effectively.

We work very closely with the Midlands Engine on sustainability policy and strategy, helping to develop its Green Growth Action Plan, chairing its Green Growth Board, and engaging with industry, academic and public partners.

The first law firm to become an official partner to O-Shaped, an innovative movement with a mission to drive positive change within the legal sector and promote greater collaboration between law firms and their clients.

Our value proposition

Partner led

We believe in smaller, partner led teams – but we can field significant resources when required.

Sector expertise

Our advice is underpinned by sector and asset specific knowledge and experience.

Solution oriented

We believe that legal and commercial issues should be met with solutions.

Commercial

We add commercial value through providing innovative, practical and thoughtful advice.

Collaborative

We understand the intricacies of transactions in this sector and as such we approach transactions in a collaborative and open minded manner.

Timely completion

We are focussed on achieving your deadlines and transaction milestones.

Commitment

We are committed to helping you achieve your transactional aims and ensuring you only pay for value.

Strategic partner

We strive to build long-term relationships with our clients, recognising this will require investment and energy.
