North West Banking & Finance update - 2019 so far

Our Banking & Finance Team continue to be busy despite the geo political environment and it shows no signs of slowing down! To support our fast growing team we have recently recruited a new partner into our Birmingham office - Paul Hill - who joins us with 10 years banking & finance experience at A&O who has already hit the ground running and completed his first few transactions.

Below are a flavour of some of the transactions our North West banking & finance team have been involved in recently:

Acting for Clydesdale Yorkshire Bank in relation to its facilities to the Ardenton-backed MBO of Budget Greeting Cards.

Acting for Arlington in relation to the £95m asset backed facilities provided by MidCap Financial for the purposes of the acquisition of the Wahler thermostat business from BorgWarner.

Advised Santander in relation to its ABL facilities to support the acquisition of British Cables Company by the Wilms Group.
