

CST Conference 2025

 16 October 2025 to 17 October 2025

We'll be returning to the CST conference this year.

Last year's version of the conference included speeches from notable education experts and inspiring stories from various speakers. Participants have the chance to join workshops, network with suppliers and peers, and explore the exhibition.

Join us this year for another opportunity to think deeply, nurture relationships, and challenge ourselves to reflect on how we can continue to build a stronger sector.
