

# Share your thoughts on the changing shape of the education sector

01 October 2024

We're inviting the leaders of the nation's schools and academies to share views in our bi-annual [School Leaders Survey](#). We're keen to capture and share insight on the evolving policy landscape following the change in government and any shifts in strategic priorities for schools and trusts.

While the latest edition of the survey remains tightly focused (it only takes 10 minutes to complete) we've still managed to provide the opportunity for a deeper dive into key challenges such as SEND support and to explore the opportunities and risks posed by AI.

This survey focuses on crucial topics, including:

- Strategic priorities for school and trusts
- Government policy post-election
- The evolving role of AI in education
- SEND support for students

You can [check out results from past editions here](#), which represent an estimated 1,800 schools nationally. We're keen to make this edition even more representative, so, please help by sharing your experience to help give us all a clearer picture of how things are changing this academic year.

The survey will remain open throughout October, and we'll share the results with all participants in late November 2024.
