

Browne Jacobson announces promotion of twenty lawyers to senior associate roles

07 May 2024

UK & Ireland law firm Browne Jacobson has announced the promotion of twenty of its lawyers to senior associate.

The promotions came into effect on 1 May 2024, bringing the total number of senior associates at the firm to 148.

This follows the firm's recent announcement that fourteen lawyers have been promoted to its partnership and one to legal director.

Browne Jacobson continues to make positive progress towards its diversity targets with 71% of the newly promoted senior associates identifying as female and 10% identifying as UK ethnic minority.

The promotions run across several legal teams and span the firm's Birmingham, London, Manchester and Nottingham offices.

Caroline Green, Senior Partner at Browne Jacobson, said: *"We are immensely proud of our new senior associates – not only are they exceptional lawyers providing top tier support to their clients, but they all actively contribute to our firm's mission to work at the forefront of society's biggest issues. We are very much looking forward to supporting them as they continue to develop their professional careers at Browne Jacobson."*
