

NHS White Paper (part 3) - ensuring accountability and enhancing public confidence

This is the third in a series of four webinars regarding the NHS White Paper. We will provide an overview and discussion of the ensuring accountability and enhancing public confidence proposals section of the white paper, looking at the framework for oversight of the health system and workforce accountability.

07 May 2021

This online event took place on 7 May 2021 and is now available on-demand. The content in this recording was correct as of the original webinar date.

This is the third in a series of four webinars and provides an overview and discussion of the ensuring accountability and enhancing public confidence proposals section of the white paper, looking at the framework for oversight of the health system and workforce accountability; proposed changes to the NHS mandate and broadening the scope for potential ministerial interventions in reconfigurations, Arm's Length bodies and Special Health Authorities time limits.

It was an opportunity to share thoughts on any practical implications which may arise out of the proposals.

The session was chaired by **Sir Neil McKay**, Strategic Consultant for Browne Jacobson, who has a long and distinguished career in senior leadership positions in the NHS in England.
